

Information for parents and students

MOVITAE

We are proud to extend student's learning with Movitae! Parents please take advantage of our wonderful learning environment for your child.

Made for dance schools, Movitae enables teachers to create an online communication and learning hub for students. Students can take their dance class home, be inspired between lessons and get better faster. Sharing is within the dance school and anything shared can be un-shared at any time. Movitae is suitable for all ages and stages.

With Movitae we can:

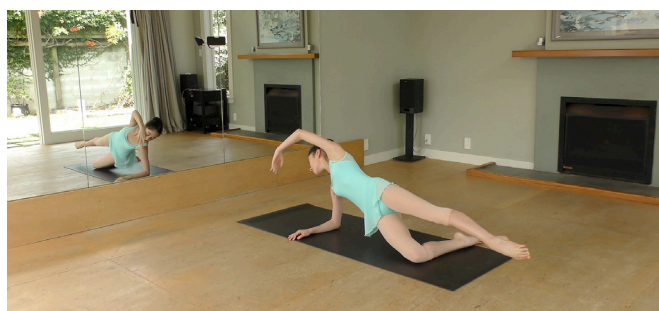

- Create your 'go-to' place for all your dance resources.
- Share video footage and feedback straight from the classroom to you or your class groups.
- Easily message and share school information with you. You will be notified when an item is shared to you. (Make sure you have downloaded the free Movitae App and enabled push notifications), you will also receive an email (emails can be sent to both parent and student - check your profile settings).
- Help students condition for their dancing, by sharing class and student specific conditioning exercises.
- Help students set goals, view their progress and reward them for their effort.

With Movitae you can:

- Create your personal dance profile.
- Keep all your dance information, dance video, music and inspiration in one place
- Request feedback on your competition or practice videos from your teacher
- Create your own dance journal and share this with your teachers for review and see your progress!
- Be part of your online class community

Parents give your young dancer the chance to extend their learning and share their love of dance. You can monitor your child's account activity and encourage them to engage with the content as much as you can. If you have any questions there is more information on the Movitae website (movitae.com) or please get in touch with Movitae (info@movitae.com) or, please come and talk to us at the studio.
