

MOVITAE

Gillian Moore School of Dance has gone digital! Please come and join us and get the benefit of our wonderful online learning environment.

We are thrilled to be able to enhance student learning with Movitae's digital environment, made especially for dance schools. Movitae enables us to privately communicate, share the latest school information and learning videos from class with our school community. It means you have all of your dance information at your fingertips and in one place! Teachers will be sharing the latest conditioning exercises, class techniques and practice assistance helping students get the most from their dance classes.

Our online environment also empowers parents to participate in the learning process and allows us to support the potential of every student wherever they are at in their dance journey.

To sign up to Gillian Moore School of Dance on Movitae just ask your teacher. To find out more about Movitae go to www.movitae.com. Follow them on social media for updates and more information.
